

WHAT *to* WEAR *for your* FAMILY PORTRAIT

- Try not to clash but try not to match too much. You can colour co-ordinate like these portraits pictured though.
- Avoid big words/graphics or pictures on the front of tops
- Avoid red as this can reflect up on to your face
- For little girls, make sure they have leggings under skirts. They will be jumping, sitting and playing and we don't want to see any knickers!

- Maybe bring a change of clothes if there is something that your children really wants to wear, but you prefer not to have it in the family group shots (ie: super hero, fairy dresses or that one thing they love but you're not so keen on).
- Or you can do what we did and get your kids to wear their favourite outfits, and I told my husband what I thought he looked good in.
- Most importantly don't forget to have fun on your shoot! I may get you to dance or play just go with it - you're making memories!!!
